We have been using Express Graphic Design & Printing for more than five years and have stayed. They give us the best product for a great price that can not be found anywhere else. Above all, they have excellent customer service as they strive to always keep us happy with the outcome. We have recommended Express Graphic to many partners that have decided to look no further once they have worked to Express Graphic.

Stephanie Nguyen

As a business owner, you know there are laws every business must follow. However, results of a recent survey by zTelligence and Fellows Inc., (July 2005), showed only 13.1% of business owners recognize the term "FACTA." That could mean that nearly 87% of all business owners aren't aware that FACTA:

- Is federal legislation that went into effect June 2005
- Can shut your business down whether you have two or two thousand employees
- Can result in major fines to you and your business by the FTC for non-compliance
- Provides another avenue for lawyers to file lawsuits against your business on behalf of customers or employees

FACTA is only one piece of legislation that affects your business. There are others:

- HIPAA Security Rule
- Gramm, Leach, Bliley (GLB) Safeguard Rule
- Numerous individual state laws (such as the Texas Whistle Blower Statue)

GOOD NEWS IN A BAD ECONOMY
Let's face it. We can all use a little good news these days. On February 17, 2009, President Obama signed The American Recovery and Reinvestment act of 2009. This bill includes **tax credits up to \$1500** available to consumers, for the installation of a new qualifying heating and air conditioning system.

With available Tax Credits, Rebates and Financing: If your heating and air conditioning system is over 12 years old, there's no better time to replace it!

CUSTOMER SATISFACTION WILL ALWAYS BE OUR #1 GOAL
Service...is a word we take very seriously at Bonney! Our goal is for you to be 100% satisfied with each and every service or installation we provide for you and your family or your business. Our main business is taking care of your plumbing, drain clearing, heating and air conditioning systems and **WE SERVICE ALL BRANDS**, not just the ones we install.

***PREVENTATIVE MAINTENANCE SAVES YOU MONEY**
Out of sight, out of mind is the #1 reason that Heating and Cooling systems are neglected and not properly maintained. HVAC systems are typically installed where we can't see them - making them easy to ignore. When HVAC systems aren't maintained, they can break down when you need them the most

ENJOY UP TO 99.98% CLEANER AIR
Seasonal allergies? Make your home a better place to live. TRANE CleanEffects™ removes more airborne allergens from the filtered air in your home than any other cleaning system, up to 100 times more than a standard 1" filter. Ask Bonney about adding the TRANE CleanEffects air filtration system and ActivTek Induct 2000 air purifier to your new or existing heating and cooling system.

Serving the Greater Sacramento Area
State Lic. 696355

Hydrex Pest Control has offered Effective Termite and Pest Control Services to Sacramento Area Homeowners since 1990. Honest values and courteous service are the way we do business. If you have a pest problem, give us a call and we will give you a free quote; most homes are priced at \$68 on a bi-monthly service agreement. This service includes removal of cob-webs on the 1st story exterior as well as exterior treatment and interior treatment as needed. *(SEE COUPON)*

If you see what you suspect to be Termites, we will send an experienced Termite Inspector to your home **FREE** of charge to identify them and offer a quote to treat them. They can also give you a price to repair termite damaged or dry rotted wood. If you are selling your home, call us for a complete Termite inspection. *(SEE COUPON)*

Subterranean termites live deep down in the soil so the goal of a subterranean termite treatment is to create a continuous barrier of treated soil between the termite colony in the ground, and your home.

The chemical we use "Termidor"™ is virtually odorless. Termites are highly social. Because of this, grooming, feeding, and colony maintenance spread the chemical, eventually eliminating the whole colony.

In structures with raised foundations, treatment is highly concentrated around footings, piers, and plumbing in the sub-area. Termites are more likely to build their tubes along these areas. Then the remainder of the soil is treated to stop and prevent any freestanding termite activity.

If the house is built using slab construction holes may need to be drilled through slab sidewalks, patios, cracks in slab and garage areas to treat the soil by injection of chemical.
